Special Acknowledgements

To the American Bank Note Company for the support of its employees. To Mr. Harvey Kesner and Ms. Jeronima Pilar in particular, but most of all to Mrs. Aurelia Callwood-Nieves, for giving me the opportunity to study the American Bank Note Company archives.

Mrs. Aurelia Callwood-Nieves dedicated most of her professional life to the American Bank Note Company as the person in charge of the archives department for many years. She worked as hard as possible to keep most of the records kept by the American Bank Note Company intact. This book would never have been a reality without her vision of the importance of keeping it all together; she believed the most important aspect of the archives department was the amount of history held therein. I hope this book will give her a feeling of achievement for all of her hard work over the years.

To Mr. William S. Barrett for his tremendous personality and for sharing his knowledge and experiences. Over the years Mr. Barrett has proved to be one of the top experts in the paper money field; having his support was very encouraging for me, and added great value to this book. His interest, assistance and contributions were very much appreciated.

For the excellent assistance of Mrs. Tania Rodrigues de Freitas, from the Museum of the Banco Central do Brasil.

Many others helped me put this book together in one way or the other, and I would like to mention their names: Cleber J. Coimbra, Luis Fernando Galvao Lopez, Colin R. Bruce II, Walter D. Allan, James A. Hamby, Arthur H. Morowitz, Louis Hudson and Richard Ponterio. Also I would like to thank Krause Publications for supplying the illustrations for this book.

To my wife, for supporting me in every way possible; over the ten years I worked on this project, she always believed. To my parents, especially my mother, who taught me the values of life: respect, dignity, hard work, and most importantly, the value of having a family.

This work is dedicated to my daughter "S.B.M." Children must be our reason for living. Finally I would like to thank God for being part of my life; the opportunity to be under God's hands, will make every moment in life worthwhile.

Introduction

The American Bank Note Company in the United Sates of America was responsible for printing the majority of the paper money used by most of the Latin American countries between 1870 and 1970. For over one hundred years the American Bank Note Company produced some of the most beautiful banknotes ever made, and the quality of its work had earned the trust and respect from the world.

About fifteen years ago, the American Bank Note Company made a very important decision, due to the fact that most of their previous customers hadn't used their services for more than twenty years. A large number of countries that used to buy banknotes from the American Bank Note Company started producing their own banknotes in locally operated security printing companies. At that point, the American Bank Note Company decided to break down the archives department and sell a large amount of specimen and proof banknotes they had in their possession, through a series of auctions.

The auctions were very successful; the quality of the banknotes offered was truly spectacular, and the only down side was the fact that the archives had been broken apart forever. The archives department had very important records for thousands of different banknotes. These records deserved to be saved as a part of the American Bank Note Company history and the history of so many private banks and government issuing authorities throughout Latin America.

The objective of this book is to record all available information on banknotes produced by the American Bank Note Company to all Latin American countries from Argentina through Venezuela. Of course, as in any other historical research project, not every piece of information was found; but still, taking in consideration the period that this book covers and the number of banknotes listed (almost two thousand different banknotes from twenty different countries) one can say this is a very complete book.

This is a reference work; many of the banknotes listed in this book are very rare, and some only had been listed in the past as specimens and proofs. Today these banknotes have complete records with production dates, quantities printed, serial numbers and much more. Over the years one of the aspects of banknote collecting that was always in demand was knowledge. Publishing this book will establish a valuable tool for collectors and historians and I hope you may find it informative and exciting.

The system used to put this book together, due to the large amount of technical data available, was very simple: Countries and Banks are listed in alphabetical order and the banknotes are listed by denomination. Every banknote listed has a reference number ("Standard Catalog of World Paper Money" reference numbers have been added to the descriptions of each banknote to make it easier for collectors to identify their banknotes. Editions used were: Specialized Issues, Volume One - 9th edition, General Issues, Volume Two - 10th Edition and Modern Issues, Volume Three - 9th Edition.)

Information on production dates, quantity of banknotes printed, serial numbers and series letters are very complete through the records found. (Notes per plate, dates and signature records are not always available.) Under comments and observations you will find information on dates, signatures and also on different varieties of banknotes when records are available.

Production dates are a vital piece of information; now the age of each banknote can be determinate just by looking at the serial number of the banknote and taking in consideration that some banknotes were produced for more than a twenty year period, this will be an important tool to evaluate and to determine values of many banknotes in the future.

Serial number records are another break-through of this book; different banknotes may have serial numbers in sequence or different denominations also may have serial numbers in sequence; on other times serial numbers just don't start from the traditional number "one." Going through each banknote listed in this book, collectors will gain a new perspective on the serial numbers concepts used by the American Bank Note Company over the years.

Also, very important information has been discovered about serial number sequences, between banknotes printed by the American Bank Note Company and banknotes printed in Europe by companies like Bradbury, Wilkinson & Company, Thomas De La Rue and others; these records are one of the highlights of this book.

It's important to remark that many banknotes produced by the American Bank Note Company were delivered to their customers without dates or signatures, and in some cases banknotes were produced with one or two signatures and a second or third signature were left blank to be fill in by the bank afterwards; signatures could be engraved or just typed (printed) on each banknote.

Many banknotes printed by the American Bank Note Company have a date line engraved on them, also to be filled in by the bank at the time of issue of the banknote.

Series letters also can be engraved or typed on each banknote, or in some cases series letters were left blank to be typed by the customer afterwards. Sometimes the letters on the banknotes are check letters not series letters. To better understand this concept, let's take two sheets of four banknotes each; on the first sheet each banknote has a letter (A-B-C-D) and each banknote has the same serial number (1-1-1-1) -in this case the letters are series letters; on the second sheet each banknote has a letter (A-B-C-D) but each banknote has a different serial number (1-2-3-4) -in this case the letters are check letters.

Check letters are a simple system of checking the letter and serial number of the banknote, against the position on the sheet where the banknote was printed. In the early days this system was used to detect forgeries. Most of the records on check letters are missing from the American Bank Note Company archives, but if a large group of issued banknotes is available to research and the number of banknotes per sheets are known (Notes p/ plate) collectors can find out the location tabs of plates very easily; under the Brazilian section of this book you will find an extensive research of the check letters system.

The American Bank Note Company also used private marks (secret letters, marks and symbols added to the plates of each banknote) to detect forgeries on almost every plate made by them; a few records on this matter are found and listed through the book. (Most of these records were kept in special books where hundreds of banknote proofs with the location of each private mark were saved; unfortunately these books were not available for research purposes.)

Another important fact is, some banknote records from banknotes produced by the National Bank Note Company, Franklin-Lee Bank Note Company and other companies who were absorbed by the American Bank Note Company over the years, were found mixed in the archives; all records found from these companies were added to this book.

Suggestions or corrections concerning any aspect of the listings in this book are welcome for future editions.

10/1922	80.000	254.001-334.000	2	Type II

Obs.: The break in the serial numbers is because the bank ordered banknotes from a different printing company; in this case, the 25 Pesos banknotes #1-174.000 from Series 2, were printed in England by Waterlow & Sons Ltd. (see banknote of 25 Pesos PS-157). Banknotes printed up to January 1890, are unifaces and printed in sheets of two banknotes. A back design was added to the banknotes printed from 1917 to 1922 and these banknotes were printed in sheets of ten banknotes.

Obs.: The American Bank Note Company reprinted one banknote of 1.000 Pesos in April 1882, to replace a missing banknote at the bank's request (banknote serial number #1.501).

Correspondence: *Letter of F. G. Mead – May 12,1884: "Re: 1.000 Pesos banknote Banco Mercantil Mexicano*
The original, which they reported missing, which a duplicate was printed, was presented at the Bank a few days ago. The banknote was untrimmed and was easily detected and the person was arrested. It is thought to have been stolen in the Vera Cruz Custom House. The signatures were forgeries. We are gratified to be thus vindicated just at this time"

Type I: *Engraved text "Payable at CIUDAD DE MEXICO"*
Type II: *Engraved text "Payable at CIUDAD DE_____" (payable at various branches).*

47. BANCO DE MEXICO

Introduction to the system of serial numbers, series letters and signature titles used on the banknotes from the Banco de Mexico.

SYSTEM A:

Series letters changed every 10.000.000 banknotes (except for the 1 Peso banknotes printed in May 1935, in this case the series letters changed every 5.000.000 banknotes).

The system "A" was used on the following banknotes:
1 Peso banknotes printed from1935 to 1945 (Ref.#00323-00324).

SYSTEM B:

Quantity of banknotes per series letters is unknown, because series letters were typed by the Banco de Mexico.

The system "B" was used on the following banknotes:
5 Pesos banknotes printed from 1921 to 1943 (Ref.#00328-00330).
10 Pesos banknotes printed from 1921 to 1943 (Ref.#00333-00336).
20 Pesos banknotes printed from 1921 to 1943 (Ref.#00340-00342).
50 Pesos banknotes printed from 1921 to 1944 (Ref.#00345-00347).
50 Pesos banknotes printed from 1949 to 1961 (Ref.#00348).
100 Pesos banknotes printed from 1921 to 1945 (Ref.#00349-00352).
100 Pesos banknotes printed from 1950 to 1961 (Ref.#00353).
500 Pesos banknotes printed from 1921 to 1961 (Ref.#00354-00357).
1.000 Pesos banknotes printed from 1921 to 1961 (Ref.#00358-00361).
10.000 Pesos banknotes printed from 1943 to 1953 (Ref.#00362).

SYSTEM C:

Serial numbers were divided by the number of series letters.

I will use the 50 Pesos order from October 1945 to show how this works:

Prod. Date	*Qty. Printed*	*Serial Numbers*	*Series (Prefix)*
1945-Oct.	*4.000.000*	*9.020.001-10.000.000*	*S-Z*
		1-3.020.000	*S-Z (A)*

In this case the first group of serial numbers (9.020.001-10.000.000) have 980.000 banknotes divided by eight series (S-Z) = 122.500 banknotes per series letter, so the series letters changed every 122.500 banknotes; the second group of serial numbers (A1-A3.020.000) have 3.020.000 banknotes divided by eight series (S-Z)= 377.500 banknotes per series letter, so the series letters changed every 377.500 banknotes (Series S: A1-A377.500, Series T: A377.501-A755.000, Series V: A755.001-A1.132.500, Series U: A1.132.501-A1.510.000, Series W: A1.510.001-A1.887.500, Series X: A1.887.501-A2.265.000, Series Y: A2.265.001-A2.642.500 and Series Z: A2.642.501-A3.020.000).

The system "C" was used on the following banknotes:
5 Pesos banknotes printed from 1945 to 1949 (Ref.#00330).
10 Pesos banknotes printed from 1945 to 1949 (Ref.#00336-00337).
20 Pesos banknotes printed from 1945 to 1949 (Ref.#00342-00343).
50 Pesos banknotes printed in1945 (Ref.#00347).
100 Pesos banknotes printed in1949 (Ref.#00353).

SYSTEM D:

Each series letter has 10.000.000 banknotes divided in ten prefix letters; each prefix letter has serial numbers #1-1.000.000 (letters "I" and "O" were not used as prefix letters).

The only exception was the 20 Pesos banknotes printed in 1951 (Series CT) and 1958 (Series HD); these two series only have 5.000.000 banknotes each, divided in five prefix letters.

The system "D" was used on the following banknotes:
1 Peso banknotes printed from 1948 to 1961 (Ref.#00324-00327).
5 Pesos banknotes printed from 1950 to 1961 (Ref.#00330-00332).
10 Pesos banknotes printed from 1950 to 1961 (Ref.#00337-00339).
20 Pesos banknotes printed from 1951 to 1961 (Ref.#00344).

SIGNATURES TITLES:

Signatures titles of "Consejero" "Interventor del Gobierno" and "Cajero" were used on the following banknotes:

1 Peso banknotes printed from 1935 to1945 (Ref.#00323-324).
5 Pesos banknotes printed from 1921 to 1946 (Ref.#00328-00330).
10 Pesos banknotes printed from 1921 to 1946 (Ref.#00333-00336).
20 Pesos banknotes printed from 1921 to 1945 (Ref.#00340-00342).
50 Pesos banknotes printed from 1921 to 1945 (Ref.#00345-00347).
100 Pesos banknotes printed from 1921 to 1945 (Ref.#00349-00352).
500 Pesos banknotes printed from 1921 to 1943 (Ref.#00354-00356).
1.000 Pesos banknotes printed from 1921 to 1943 (Ref.#00358-00360).
10.000 Pesos banknotes printed in 1943 (Ref.#00362).

Signatures titles of "Consejero" "Interventor de la Comission Nacional Bancaria" and "Cajero" were used on the following banknotes:

1 Peso banknotes printed from 1948 to 1961 (Ref.#00324-327).
5 Pesos banknotes printed from 1947 to 1961 (Ref.#00330-00332).
10 Pesos banknotes printed from 1947 to 1961 (Ref.#00337-00339).
20 Pesos banknotes printed from 1949 to 1961 (Ref.#00343-00344).
50 Pesos banknotes printed from 1949 to 1961 (Ref.#00348).
100 Pesos banknotes printed from 1949 to 1961 (Ref.#00353).
500 Pesos banknotes printed from 1949 to 1961 (Ref.#00357).
1.000 Pesos banknotes printed from 1949 to 1961 (Ref.#00361).
10.000 Pesos banknotes printed from 1951 to 1953 (Ref.#00362).

Obs.: Some of the signature records are unclear, same names may have a different spelling. All signatures were engraved, except for the signature #4; on this signature combination the bank had requested the name under the title of "Presidente" to be left blank, but before the banknotes were delivered, the Banco of Nicaragua asked the American Bank Note Company to add the signature of "R. F. Lorre" as Presidente, so the signature #4, has two engraved signatures and one typographed signature.

Ref.#00013-00018: By the records these banknotes were printed in February 1901; but a record dated April 1904, asking the company to erase the signature title of "El Gobernador" and replace it with the signature title of "El Presidente" on all denominations was found in the archives. Most likely the original order was held back by the American Bank Note Company as a bank request (the Bank de Puerto Rico only issued banknotes with signatures titles of "El Presidente").

Ref.#00019-00020: Both denominations received a special vignette of the "Seal of Porto Rico" as a surface print on the banknote faces.

Type I: *Banknotes dated "07.01.1909"*
Type II: *Banknotes dated "07.01.1907" (not issued).*

Obs.: Two different types of these banknotes from the 1909 Issue were found on the archives records; the first type has 1909 dates on it and the second type has 1907 dates on it (both denominations have variations on the plates). By the records banknotes were printed only in July 1907 and held up until March 1909. Now what happened in 1919 is unclear; it may be the banknotes printed in 1907 were destroyed and new ones printed with new plates, or perhaps the original order of July 1907 was never printed, and only the plates were held by the American Bank Note Company (the Bank de Puerto Rico only issued banknotes dated 1909).

Obs.: Letters "I" and "O" were not used as prefix letters (Skip prefix: I and O). The break in the serial numbers is because the bank ordered banknotes from a different printing company; in this case banknotes #376.001-2.380.000 Prefix G were printed in England by Thomas De la Rue (see banknote P- 39).
Banknotes of 20 Bolivares printed up to November 1943 were printed in sheets of twenty-one banknotes; banknotes printed from January 1946 to November 1957 were printed in sheets of twenty-four banknotes.
